

Connectives

Saturday, 10 August 2024 8:08 AM

- cause and effect — accordingly, consequently, hence, so, therefore, thus, if, and, because, unless, in this regard, in the face of, For this reason, Because of this, So, Given this.

Connecting Lines:

- "Therefore, it can be concluded that..."
- "As a result of these findings, we can infer that..."
- "Consequently, the policy was revised to reflect the new priorities."
- "Thus, the overall impact was significant."

- similarity— also, likewise, similarly, in addition, although, furthermore, on a similar note

Connecting Lines:

- "Similarly, other studies have found that..."
- "In the same way, the results suggest that..."
- "Likewise, this method has proven effective in..."

- Addition - Moreover, Furthermore, Additionally, Also, In addition, Besides, Similarly, Likewise, What's more

Connecting Lines:

- "Furthermore, this perspective is supported by recent studies."
- "In addition to this argument, another factor to consider is the role of..."
- "Moreover, the evidence clearly indicates that..."

- Contrast— but, however, in spite of, nevertheless, nonetheless, despite, On the other hand, In contrast, conversely, yet, although, whereas, even so

Connecting Lines:

- "However, this view is challenged by..."
- "On the other hand, critics argue that..."
- "Despite the benefits, there are significant drawbacks to consider."
- "In contrast, other scholars have emphasized..."

- Emphasis - Indeed, In fact, Certainly, Clearly, Undoubtedly, Without a doubt, It is important to note, Most importantly.

Connecting Lines:

- "Indeed, this evidence underscores the importance of..."
- "In fact, this is one of the most critical aspects of the issue."
- "It is important to note that these findings are consistent with..."
- "Most importantly, the study reveals that..."

- Concession : Although, Even though, While, Granted, Despite, Admittedly, Though, Nevertheless.

Connecting Lines:

- "Although this theory is widely accepted, there are some limitations."
- "Even though the results are promising, further research is needed."
- "Granted, this approach has its merits, but..."
- "Despite these challenges, the project succeeded."

- sequence— first, second, third, ... next, finally, then,

Connecting Lines:

- "First, we must consider..."
- "Subsequently, the focus shifted to..."
- "Next, it is important to examine..."
- "Finally, the study concludes with..."

time relationship— after, before, currently, during, earlier, immediately, meanwhile, now, recently, simultaneously, subsequently

- Clarification : In other words, That is to say, To put it differently, Simply put, Specifically.

Connecting Lines:

- "In other words, this approach emphasizes..."
- "To put it differently, the theory suggests that..."
- "Specifically, this means that..."

- example— for instance, namely, for example, specifically, to illustrate, such as, in particular

Connecting Lines:

- "For example, recent research has shown that..."
- "To illustrate this point, consider the case of..."
- "Specifically, the data highlights..."
- "In particular, this approach is effective when..."

- In conclusion, In summary, To sum up, In the final analysis, On the whole, All things considered, As discussed above, On balance, Overall, Therefore, Ultimately, In Short, As a result, In brief

Connecting Lines:

- "In conclusion, the evidence points to..."
- "To summarize, the key findings suggest that..."

- "Overall, the analysis demonstrates that..."
- "Therefore, it can be argued that..."
