## SECTION: A

Candidates  
must not  
write on  
this margin

1. Elaborate on the role of Sangam literature in portraying the Socio-Economic and Political conditions of its time (10 marks, 150 words)

Sangam literature was written between the period of 300BC - 300AD in ancient Tamil kingdom.

Role of Sangam literature

I. Social condition

① Mention the rituals, practices existed in period

eg) Mention about vattakirantal practice

② Mention the structure of society, role of castes etc

eg) Mention of horoscope prevalent

II Economic condition

① Temples as the centres of economic activity

eg) Role of Raja's in promoting temple economy

② Information about various jobs, occupations prevalent

eg) Blacksmiths, tuel donated a

gate to chidambaram temple

### III Political condition

① Contribution of kings in promotion of arts, literature

↳ Kaikala chola's contribution

② Document history of the time  
↳ Chera-Chola wars mentioned

② Thus, Sangam literature represent India's rich culture & heritage - which should be promoted by CREATIVE ECONOMY - a priority of India in G20

2. Indian dance forms constitute a true representation of fusion between natural elements and human emotions. Elaborate (10 marks, 150 words)

Candidates must not write on this margin

Indian dance forms are based on Natyashastra by Bharata muni which represent fusion.

Indian dance fuse Natural element

① Focus on panchabhootas as an element of dance

eg) Fire as panchabhoota of Bharatanatyam

② Natural elements incorporated in dance

eg) Tharangam in kuchupudi use water in small bowl

③ Use of natural ornaments, decorations

eg) Thisravathi use shankhmunjam flower buds in hair.

④ Mudras as representation of nature

eg) Sarpamukham, Karseemukha

⑤ Folk dances which promote  
naturalism

eg) Kalbelia snake dance

Fusion of human emotions

① Different way of representing  
different emotion

eg) Kathi, Pachhe, Kasi in Kathakali

② A single expression may evoke  
multitude of emotion

eg) Laughter in Bharatanatyam  
may be hasyam or shringaram  
(base (fun)) (erotic)

③ Raw emotions of culture  
transferred from generations

eg) Bhangra — emotion of  
community organization

Indian dance forms  
need to be popularised —

Nataraja sculpture at G20  
mandapam is a right step

3. The non-cooperation movement proved to be a failure in the course of freedom struggle of India. Critically examine. (10 marks, 150 words)

Candidates must not write on this margin

Non cooperation movement of 1920 aimed at protesting Jalian wallabagh and Khilafat wrongs

Failure of Non cooperation

- ① Communalisation of national movement eventually led to hindu - muslim disunity
- ② Low participation from common people, industrialists etc.
- ③ Not an all India struggle as North East, South India generally excluded.
- ④ Failed to achieve any significant outcome
- ⑤ Abrupt ending due to Chauri chaura movement.
- ⑥ women participation was very

low, limited to upper class  
circles compared to later events

⑦ People wouldn't completely  
absorb the ideal of Satyagraha  
& non violence.

⑧ Jalian Wallabagh never resolved  
- General Dyer went without  
punishment

Yet Success → first struggle involving  
common people  
→ Reduced violence as  
mean  
→ Aim of Swaraj achieved  
→ Inspired later leaders  
like Vallabhbhai Patel, SC Bose

⑤ Thus, Non cooperation acted  
as a stepping stone to the  
achievement of freedom in  
1947

4. Mention the factors that led to the Vietnam War. Why do you think the war prolonged in duration? (10 marks, 150 words)

Candidates must not write on this margin

Vietnam war was a proxy war in midst of cold war politics

Factors led

I. International factors

- ① Domino theory by US to prevent spread of communism in rest Asia
- ② USSR efforts to keep east Asia under communist influence
- ③ Rise of a dual polar world leading to cold war crisis.

II Other reason

- ① Vietnamese middle class intelligentsia educated at Japan promoted freedom, equality values.
- ② Influence of Chinese communist policies.

③ Leadership charisma of  
Hochiminh promoted war ethos

Prolonged war season

① Role of USSR & US in supporting  
proxy governments

② Arm & Ammunition support  
by both sides

③ Use of inhuman means  
enraged population

by Napalm, Orange agent

④ Incapability of UN in  
preventing the conflict through  
negotiation & dialogue.

⑤ Vietnam stands  
as a testimony of cold war  
politics caused destruction in  
world order & need of a  
multipolar world

Candidates must not write on this margin

5. Explain the role of cultural diversity in fostering regionalism in India. How are the manifestations of regionalism being addressed by the government? (10 marks, 150 words)

Culture has always acted as a mean of fostering regionalism in India.

### Role of culture in Regionalism

① Promote a region as having distinctive culture from others

eg Tulunadu protest

② Promotion of cultural regionalism for vote bank politics

eg Dravidian politics in Tamilnadu

③ Homogenisation as a mean of promoting regionalism

↳ Karnataka - boy. bill board in kannada lang

Manifestation Addressed by government

① Promoting pan-regional interaction

↳ Kashi-Tamil Sangamam

② Youth engagements, popularity of different culture

↳ Ek Bharat Shreshth Bharat.

③ Cooperative federalism to ensure state engagements

↳ Inter state councils

④ Constitutional measures to reduce discrimination

↳ Article 16 - Can't discriminate based on region

As PM said in Kashi Tamil Sangam, Linking Madhwa Miniature to Kashi Vishal Kashi, need to rise above regional interests

5

6. Women, especially of working age, comprise a greater share of the internal migrant pool. However they face employment barriers resulting from their social barriers augmented in the post-migration conditions. Examine (10 marks, 150 words)

Candidates must not write on this margin

87% of women migrate internally for marriage purposes (NFHS 5)

Social barriers → Employment barriers

- ① Not very easy to find a job in post migrated place
- ② Lack of availability of flexible working hours.
- ③ lack of safety which deter

women from going outside for job.  $\rightarrow$  1 rape every 15 minute in India (NCRB)

④ Double burden of managing both home & work environment

⑤ Discrimination at working place which reduce women opportunity

eg) Foxcon discriminate married women in iPhone assembly factory

⑥ Motherhood penalty, glass ceiling etc deter women

Way forward

① women friendly working places  
eg) ensuring safe travel, toilets.

② Address motherhood penalty  
eg) Palna creche scheme

③ Can ensure work from home opportunities for women.

taking women LFPR from 37%  $\rightarrow$  50% will lead to 27% Increase in gdp which lead to Viksit Bharat

7. What do you mean by the South Atlantic Anomaly? Explain the significant consequences arising out of this phenomenon. (10 marks, 150 words)

Candidates must not write on this margin

South Atlantic Anomaly refers to changes and shift in earth's magnetic field in South Atlantic.

### Significant Consequences

#### I. Communication

① Can affect proper transmission of radio waves which cause breakage in communication

② Interfere with aircraft, ship navigation due to signal breakage

#### II. Scientific Missions

① Affect the working of satellite

which pass through the region  
② can cause delayed signal and issues to human exploration mission

eg South Atlantic Anomaly disrupted International space station signal in 2019.

### III Other

① Act as an information source to earth's interior dynamics

Reason for Anomaly

→ differential magnetic activity in earth's interior

→ climate change of anthropogenic activities changing earth's interior dynamics

ESA's swarm constellation which gives info about interior earth & anomalies are a stepping stone to study & know more about such phenomena

8. Enumerate the factors influencing the Earth's energy budget. Comment on its significance. (10 marks, 150 words)

Candidates must not write on this margin

Earth's energy budget is depended on factors which affect energy receiving & reflection

Factors affect energy budget

### I Meteorologic factors

① Tilt of earth's axis

② Inclination of sun's ray

### II Atmospheric

① cloud cover affect solar insolation

② winds as a mean of energy distribution

### III Oceanic

① water currents distribute heat

② Ocean currents moderate temperature

→ Gulf stream keep northern

ports ice free

Significance

- ① Ensure equitable distribution of heat in every area
- ② constitute a goldilock zone to ensure sustainable human habitat
- ③ Reduce the effect of climate change dynamics in earth's climate.

Paris aim of  $1.5^{\circ}\text{C}$  is necessary to ensure sustainable energy budget for India

2

9. Elaborate on the various factors responsible for the imminent collapse of the Polar Vortex. Highlight the implication of such a collapse. (10 marks, 150 words)

Candidates must not write on this margin

polar vortex are polar clouds that regulate meteorological conditions in the region

Factors for collapse

I. Anthropogenic factors

① Increasing threat of temperature rise contributed by global warming

② Green house gases increase leading to splitting of vortex current

③ tropospheric ozone presence due to increased CFC use.

II Natural season

① shift of jet streams which control the movement of polar vortex.

② Shift in Energy budget

# dynamics of earth

## Implications

### I. On ~~the~~ poles

① Increased cold wave which can make life in far north difficult

② Can lead to different climate dynamics — affect human settlement

### II. On others & whole world

① Ozone depletion led issues

- UV ray
- skin cancer
- Ozone hole

② Destruction of stratospheric layer protection lead to climate change.

Kyoto & Montreal protocol ethos need to be followed to minimize the effect of Polar vortex aggravated climate change

10. Development of Tier 2 and Tier 3 cities is essential to mitigate the issues concerning population explosion in urban centres and countering urban sprawl. Discuss (10 marks, 150 words)

Candidates must not write on this margin

32% of India's population lives in cities which led to growth of tier 2 & 3 cities

↳ Gurugram near NCR Delhi

Essentiality of tier 2 & 3 cities in

I. Population explosion

① Give equitable place of living to marginalised people in cities

↳ 17% urban population in slum.

② Emerging concept of 15 minutes cities which are 15 minutes away from main centre.

③ Helps in providing essential facilities & thus reduce traffic jam like issues

↳ Bengaluru traffic jam - just 17 km/hr speed in main city

II. Counter urban sprawl

① Reduce ghettoization of

population affecting their socio-economic development

② Reduce environmental impact of city expansion

↳ Bengaluru water crisis

③ Ensure equitable regional development

↳ Aerial of Pune led to reduced sprawl in Mumbai

Issue → Concentration of infrastructure in tier 1 cities  
→ Lack proper connectivity between tier 1 & tier 2 cities

Way forward

① Invest in infrastructure development in tier 2 & 3 cities

↳ smart city mission

② Incentivise shifting of service sector companies to tier 2

↳ Bengaluru → Hyderabad shift

Ensuring tier 2 & 3 city development help achieve SDG 11

SECTION: B

viswaguru

15. Is rural India experiencing profound social issues affecting its well-being? Illustrate. (15 marks, 250 words)

Candidates must not write on this margin

Rural India <sup>(70% population)</sup> experience a diverse set of social issues & challenges which affect its well being.

Social issues affecting well being

I. Issues for individual

① Caste based hierarchy still prevalent in rural India  
↳ Dalit grooms attacked for using horse in wedding.

② Institutions that enforce social morality affect rights  
↳ khap panchayats - Roop Kanwar case of forced sati

II Issue for vulnerable population

① Patriarchy still prevalent with force in rural India.  
↳ Water wives of Rajasthan.

② Lack of rights to sexual minorities  
↳ Trans people forced to prostitution

### III Issues affecting Social fabric

① Insider- Outsider dichotomy  
still prevalent

eg) Muzafarpur riot.

② Introsion of culture & traditions  
due to modernization leading  
to commodification

eg) Madhubani paintings being  
printed on plastic → loss village  
livelihood

### Reasons for Social issues prevalence

① Lack of access to education  
which deter stereotypes.

② Lack of efforts from administration  
to solve social issues

eg) LSG officials not reporting  
husbands taking role of women  
panchayat presidents - Pradhan  
- pati culture

③ Beaurocratic apathy & exploitation

India has emphasized on the ideal of sarva dharma samabhava based on tolerance to all

India's tolerance of

1) Other religion → Buddhism  
 → Jainism - Anekantavada  
 → Jews never persecuted

2) Other culture → Adopting new culture  
 → horoscope from greeks  
 → Intermix of cultures  
 → chutney music = Indian + apocrypho.

Rising intolerance | attack secular fabric

I. Between religion

① Increased cases of communal violence → Nuh violence in 2023

② Insider-outsider dichotomy making clear cast discrimination

emphasized by economic inequality

↳ Bulldozer raj

## II Within religion

① Intra tribal conflicts increasing

↳ kuki-meitei sot

② suppression of lower caste by upper caste

↳ Una floggings.

③ State actors fuelling the intolerance

↳ Bhagalpur blinding of dalit culprits by police using acid.

## III Between cultures

① strict cultural segregation to

prevent intermixing

↳ ghettoization.

② New age communication devices

as a mean of safeguarding & preventing intermixing.

↳ twitter handles that do

hate speech on other culture

Candidates  
must not  
write on  
this margin

Way forward to ensure a tolerant  
social fabric

Candidates must not write on this margin

From Sati pratha to inter-faith families family system has undergone massive change (Supreme court remark)

Changes in family system

→ Double income no kid family

→ Shell family - no inter connection between family

→ live in relation

→ single parent family

→ same sex parent families

Nuclear family replace traditional

Pros

① Focus on individuality of members lead to liberty

→ No need for all elders permission to go for a course

② Women independence due to reduced

influence of patriarchy

→ women Labour force participation

③ Increased access to resources  
& equitable distribution for all  
members.

→ prevent 'extended foeticide' - UN  
girl child denied nutrition.

④ Promote migration of couple  
to urban centres which promote  
economic development

Cons

① Affect mental health of elderly  
population due to loneliness

→ empty nest syndrome when  
children move to far away

② children in nuclear family denied  
grand parental affection & morals

→ video games instead of  
panchatantra stories

③ Affect community cohesion  
& feeling of oneness, sharing

mentality that exist in traditional families.

eg Celebrating victory & sorrow together.

Yet, Nuclear family has reinforced traditional values

① Video calls as a mean of keeping relation alive

② People go back to ancestral traditional village & families post retirement

③ Digital revolution & facilities which replace need for maximum members for child care

eg Palna creches for working women.

Values of Indian family system like collectivism, sharing mentality etc need to be nurtured from generation to generation

18. The frequency of landslides in the Western Ghats have increased owing to various factors. Explain its devastating impact and critically analyse the mitigating measures adopted. (15 marks, 250 words)

Candidate must not write on this margin

12% of Indian landmass is vulnerable to landslide  
 eg Wayanad landslide in 2024.

Factors leading to frequency increase

I. Natural factors

① cloud burst

eg Kavalpara landslide

② Unpredictable rain, cyclone oriented

II. Anthropogenic

① Unsustainable development

eg Vishnugad thermal plant → Joshimath landslide

② Geography not taken into account while development

eg sprawling of resorts in Wayanad area.

# Devastating impact of landslide

Candidates  
must not  
write on  
this margin

## I. Ecological

- ① lead to soil erosion, loss of vegetation
- ② Destruction of natural Biodiversity of region.

## II Anthropogenic impact

- ① Loss of human life & livelihood  
eg → A village totally erased by wayanadu landslide.

## III Economic impact

- ① Freeze the thriving economy of affected region
- ② Affect developmental efforts in region  
eg → karalapara landslide affected tea industry in Idukki
- ③ Huge resources needed for search & mitigation  
eg → shivpur landslide - 10 day search.

## Mitigating measures

- ① ISRO landslide atlas
- ② Gadgil & Kasturji zangam committees
- ③ Stringent rules for construction in landslide area

## Way forward

- ① Gadgil committee recommendation for prevention
  - ② Sustainable development  
↳ Bamboo huts instead of resort
- Need to ensure no development zone (Gadgil committee) to prevent further disasters.

19. Examine the geographical distribution of critical minerals in India as well as the world and their importance for India's economic security in the context of the global push for clean energy. (15 marks, 250 words)

Candidates must not write on this margin

In the era of Industry 4.0, need for push of critical minerals has become a crucial factor for development.

Distribution of critical minerals

I India

- ① Thorium - Kerala Sand
- ② Uranium - Thummalapalle, Andhra
- ③ Titanium - in Kerala, west coast
- ④ Lithium - Keasi in Jammu, Karnataka

II India World

## Importance of Critical minerals

### I. Economic security

① India Import dependence  
affect strategic autonomy

eg) 60% Rare earth from china

② Need of more critical minerals  
for new age technologies

eg) Germanium for semiconductor  
Industry

③ Geopolitical crisis affecting  
India's economy.

eg) Afghan-Taliban crisis affect  
Uranium import from central  
Asia

### II Clean energy

① Need to replace coal which  
60% of India's energy is produced

② To achieve shift from oil to  
electric vehicle

eg) Lithium batteries needed

- ③ Need to achieve panchamrit goals & net neutrality by 2070.
- ④ Achieve Atmanirbhar in clean energy  
eg) Cobalt needed for critical parts of clean energy tech.

### India's efforts

- ① India - Australia MoU for Lithium supply
- ② ICABIL - investment in Bolivia for Lithium
- ③ Pushing to stage 3 of nuclear energy to use Thorium in Kerala sand
- ④ MoU with Congo for Cobalt
- ⑤ Diversify import market

India need to push more to ensure clean energy to achieve 3 times renewable energy production pledge at COP 28

20. Indiscriminate levels of anthropogenic activity along with climate change have paved the way for India being an acutely water stressed nation. In this context, analyze the causes as well as mitigation measures to be adopted with special focus on Atal Bhujal Yojana. (15 marks, 250 words)

Candidate must not write on this margin

India has 17% of population but only 4% of water resources of the world.

India being water stressed

I Anthropogenic activity - Causes

① Indiscriminate use of water resources.

eg → electricity subsidy  
→ water pump 24x7

② Non climate resilient

cultivation eg Rice in semi arid punjab.

③ Increasing urbanization leading to destruction of water resource

eg Masadu flat case Kerala — above wetland

④ Destruction of wetland for development — 60% of wetlands

already destroyed

## II Climate change

① Heatwave leading to faster evaporation & water stress

② Monsoon pattern disruption affect water availability

55% Tehsils in India experienced
